Comments: [i] This internal serial number is used for the second of two messages transmitted under external serial number 1691 of 1 Dec 1944; it was signed by NKX, and dealt with an entirely different subject (see S/NBP/T37, Item 2). The message of which the present text gives the last part probably contains material derived from LADD (Theodore Alvin Ladd). Previous re-use of an internal serial number is not without precedent on this lane.

[ii] To judge by the names which follow, the problem of atomic energy.

[iii] HOFFER, Nicholas, President and Manager of AMERICA, which produces and distributes Russian motion picture films in the Western Hemisphere. Collateral suggests that the "he" of this paragraph was STEIN (Haville NKX).
